📍 Mumbai, India 📞 +91-8268303521 ✉ dhananjaymaurya366@gmail.com 🔗 [linkedin.com/in/dhananjay-maurya](https://www.linkedin.com/in/dhananjay-maurya) 🐙 github.com/MauryaQbit

Professional Summary

Final-year Information Technology student with hands-on full-stack development experience across React.js, Next.js, Node.js, Python, and Django. Delivered production-style projects spanning role-based authentication, real-time data systems, AI-powered analytics, and ML forecasting pipelines. Contributed 7+ merged pull requests to an open-source TypeScript codebase and completed a software engineering internship building REST APIs. Seeking an SDE / Full-Stack Developer internship to apply and grow these skills in a production engineering environment.

Technical Skills

Languages: Python, JavaScript, TypeScript

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Django, Flask, REST APIs, JWT Auth

Databases: MongoDB, Firebase (Firestore)

Cloud & DevOps: AWS (EC2, S3), Git, GitHub, Jenkins, CI/CD, Linux

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Machine Learning

Professional Experience

Software Engineer Intern — Compozent (Remote)

Dec 2024 – Jan 2025

- Developed and integrated REST APIs using Node.js with a MySQL backend, supporting core web application functionality.
- Built interactive, responsive UI components in React.js and resolved server-side bugs to improve application stability.
- Collaborated with the development team to ship features within a 5-week sprint cycle.

Open Source Contributor — Corsair Open Source

2026

- Delivered 7+ pull requests, all merged into production, building API plugins in TypeScript integrated via REST APIs.
- Participated in maintainer-led code reviews and CI/CD workflows, improving code quality and adherence to project standards.

Projects

AI Customer Feedback Intelligence Platform

Next.js 14, TypeScript, PostgreSQL, Prisma, Tailwind CSS, Anthropic Claude API, Vercel

- Led a 4-member team to build a multi-tenant AI-powered feedback analytics platform with role-based access control (RBAC) and organization-level dashboards.
- Engineered AI-driven features including sentiment classification, theme clustering, and a RAG-based natural-language Q&A system over customer feedback data.
- Built responsive analytics interfaces using Recharts and Zod-validated forms; deployed on Vercel with NextAuth-based authentication.
- Coordinated feature-branch development and code integration across the team via Git/GitHub.

CampusSync – Smart Campus Management Platform

React.js, Tailwind CSS, Firebase — Live: [campussync-c3d3c.web.app](#)

- Engineered a role-based authentication system for 3 user types (students, faculty, admins) using Firebase Auth and custom security rules.
- Built a real-time floor plan interface serving 500+ students, using Firebase Firestore listeners for live room availability updates.
- Implemented optimistic locking in Firestore to eliminate double-bookings, and generated per-room QR codes for check-in/check-out using the qrcode npm library.
- Designed a predictive booking engine analyzing historical usage logs to recommend optimal reservation times.
- Won Top Team recognition at NEOFuture Hackathon 2026, built in 24 hours against 200+ competing teams.

Smart City Traffic Forecasting

Python, Pandas, NumPy, Scikit-learn, Streamlit

- Built an end-to-end ML pipeline (data preprocessing, feature engineering, training, evaluation) on a 48,120-row dataset across 4 traffic junctions.
- Trained and compared Linear Regression, Random Forest, SARIMA, and LSTM models; Random Forest achieved the best performance (MAE ~2.89).
- Developed an interactive Streamlit dashboard to visualize traffic trends and forecasting results for transportation planning use cases.

Achievements & Certifications

- Top Team Recognition, NEOFuture Hackathon 2026 – Shree L.R. Tiwari College of Engineering
- JPMorgan Chase Software Engineering Job Simulation (Forage), Sept 2025 – completed financial data analysis and trading dashboard simulation
- Foundation Course on Green Skills and Artificial Intelligence – Edunet Foundation

Education

B.E. in Information Technology (Pursuing)

2023 – 2027

Shree L.R. Tiwari College of Engineering, Mumbai

Higher Secondary (12th Grade)

Graduated 2023

Aditya Academy, Mumbai
